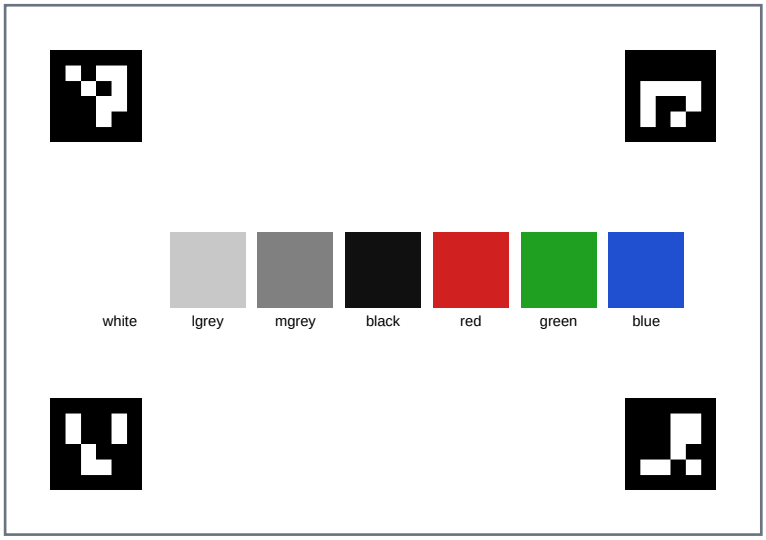
FieldProof - Printable Reference Colour Card

Print at 100% scale on matte paper. Measure the outline: it must be 100 x 70 mm.

DEMO calibration aid - verify patch colours against the kit manufacturer's chart before real use.



Known patch values (sRGB hex / CIELAB):

white	#FFFFFF	Lab 100.0, -0.0, 0.0
lgrey	#C8C8C8	Lab 80.6, -0.0, 0.0
mgrey	#808080	Lab 53.6, -0.0, 0.0
black	#101010	Lab 4.7, -0.0, 0.0
red	#D02020	Lab 45.0, 64.9, 46.4
green	#20A020	Lab 57.6, -56.9, 52.6
blue	#2050D0	Lab 38.9, 32.7, -70.2

ArUco markers:

Dictionary DICT_4X4_50, 12 mm, ids 0-3 at the four corners.

id 0 TL at (6.0, 6.0) mm
id 1 TR at (82.0, 6.0) mm
id 2 BR at (82.0, 52.0) mm
id 3 BL at (6.0, 52.0) mm

Source: DEMO DATA - reference card patch values are nominal sRGB values for the printed card. Verify against a calibrated reference card and the kit manufacturer's colour ch
Field tests are presumptive only. Confirmatory laboratory testing is required before any identification is treated as confirmed.
